Tell me about yourself.

Make sure to cover the bases - who you are, what you are studying, 1-2 things that you have done while in school (jobs, research, activities) and end with what you would like to do and/or a compliment (and I'm really excited to be here). You may want to work on your eye contact. Overall you did a great job at answering the question clearly and concisely. (Anonymous) 35.80

▶ What is your college major? What factors did you consider when choosing your major?

▶ Which of your courses or activities has helped prepare you for an internship in your field?

▶ What are your career goals and how will an internship increase your chances of reaching them?

▶ Give an example of a problem, which you faced on any job you have had (or in school) and tell how you went about solving it

We are looking for candidates with initiative, communication skills, and independent judgment. Please tell of us of one or several instances in which you've demonstrated these qualities.

▶ Give me a recent example of constructive criticism
